

Ceoma feat The Larx, Love is More

Your love is my home
But i'm only one
One of so many, hearts undone
No love isn't cold
Love is an anker, holding you down
When lonely
When lonely
Love is only a word
The meaning unheard
Is in the truth of all you feel
And love will revive
If love doesn't side you
Just let it find you
Love is more than just a memory
Love is more than just a song
I've given heaven up my habit here
Love is more...
Love is more...
Love is more...
Love is far from alone
And closer than here
Love is the truth that knows no fear
And love is alive
It's stirring inside you
Just let it find you
Love is more than just a memory
Love is more than just a song
I have given heaven up my habit here
Love is more...
Love is more...
Love is more...
Love is more...
