

Cerf & Evelio feat. Jaren, Walk Away

Well I know you dont need me
The way that I need you
And I know you dont crave me
The way that I crave you
I dont need you to save me
When everythings crazy
Cause I know you wont chase me
Whenever I want you near
So just walk away
Cause I dont have the strength to leave you
So just walk away
Turn around without a word to say
Will you walk away, walk away
Theres no ever getting used to you
So the sun can come down without your arms around me
I know that love is so jaded
And the meaning keeps fading out
What the music keeps playing, every word that I try to praise
And all the lyrics I sing to you, they dont really amount to
All the suffering Ive been through, whenever I want you near
So just walk away
Cause I dont have the strength to leave you
So just walk away
Turn around without a word to say
Will you walk away, walk away
When Ive only been good to you
So the rain can fall down upon my face as I say
So just walk away
Cause I dont have the strength to leave you
So just walk away
Turn around without a word to say
Will you walk away, walk away
When Ive only been good to you
So the rain can fall down upon my face as I say
