

Cetera Peter, And I Think Of You

Cetera Peter

One Clear Voice

And I Think Of You

Where did you go - why did you run

What did you need from me you felt we were missing

Now you never write - and you never call

What did you want - I couldn't give

You should've told me baby I would have listened

Why did you leave - when we had it all

And I think of you

Yes I think of you

(chorus)

Everywhere I go - anytime of the day

Every move I make - every word that I say

If I let myself I get carried away

When I think of you

I still think of you

Time on my hands doesn't seem right

I'll never get used to this single life

And now I wonder what you're doing tonight

(bridge)

We got away from it all

In a house upon the hill

I loved you then and I always will

Oh Oh Oh Oh Oh
