

Cetera Peter, Feels Like Heaven

Cetera Peter
World Falling Down
Feels Like Heaven
All through my wandering years
I always said I was biding my time
But alone in the dark I'd face my fears
That no other heart would come to mine

At first when you found me
It took me a while 'til I realized
Why I felt weak when you were around me
Why I couldn't speak when I looked in your eyes

All this time I've been searching
Until you, I was lost in my dreams
And I never knew that love could feel like heaven
Watching over me

Oh wherever you go
Invisible hands reach over the miles
For every wish you make to the stars
There's one silent kiss I send to the sky

All this time I've been searching
Until you I was lost in my dreams
And I never knew that love could feel like heaven
Watching over me

Everything has changed
Since you came my way
'Cause you put the color
In a world of grey
And you make the love
That carries me away

All this time I've been searching
Until you I was lost in my dreams
And I never knew that love could feel like heaven
Watching over me
Feels like heaven
Watching over me
