

Chad Brock, Evangeline

She's been here
workin' all summer long
pumpin' gas for the boats on the coute bla
She's so brown
from bein' in the sun all day
the boys from town
hang around her papa's place
And they all say

Hey, you can see her down at boat dock
Walkin' up the peir in her flip flops
Tying up the lines in her tank top
Dippin' out the bait at the bait shop
Every boy around love to say "That girl's mine"
Summers gonna end I know it
Only gonna miss you so
Wish you didn't have to go Evangeline

Won't be long
She'll be going back to school
Going home all the way to Baton Rouge
Her papa says he'll get along the best he can
And all the boys will be so broken hearted then
'Till the summer again

Hey you can see her down at the boat dock
Walkin' up the peir in her flip flops
Tying up the lines in her tank top
Dippin' out the bait at the bait shop
Every boy around love to say "That girl's mine"
Summers gonna end I know it
Only gonna miss you so
Wish you didn't have to go Evangeline
