

Chad Brock, This

(Chad Brock, Stephony Smith, Jim Collins)

How'd you do that
I can't describe the way it makes me feel
It threw me off track
Until your kiss I had nerves of steel
Your lips just seem to fit me
All this love is makin' me dizzy

I knew I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined
This

I wasn't ready
The way you touched me scared me half to death
Have mercy
But not enough to let me catch my breath
I dreamed of us together
But this dream is even better

I knew I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined
This

Oh, when we're doin' this
This feeling is overwhelming
When I think it's as good as it gets
It's so good, nothin' can help me

I knew I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined
This

I knew I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined
This
