Chad Brock, This

(Chad Brock, Stephony Smith, Jim Collins)

How'd you do that I can't describe the way it makes me feel It threw me off track Until your kiss I had nerves of steel Your lips just seem to fit me All this love is makin' me dizzy

I knew I was gonna see fireworks The gates of heaven and emotional bliss Thought I had a great imagination But I never imagined This

I wasn't ready The way you touched me scared me half to death Have mercy But not enough to let me catch my breath I dreamed of us together But this dream is even better

I knew I was gonna see fireworks The gates of heaven and emotional bliss Thought I had a great imagination But I never imagined This

Oh, when we're doin' this This feeling is overwhelming When I think it's as good as it gets It's so good, nothin' can help me

I knew I was gonna see fireworks The gates of heaven and emotional bliss Thought I had a great imagination But I never imagined This

I knew I was gonna see fireworks The gates of heaven and emotional bliss Thought I had a great imagination But I never imagined This
