

Chad Brock, You Made A Liar Out Of Me

(Rich Alves/Brad Cotter/J.B. Rudd)

There's no magic between you and me
I said good friends is all we'll ever be
No more, no less
But now I have to confess

You made a liar out of me
I'm saying things I said I'd never say
I swore no one could make me feel this way
Now everyone can see
You made a liar out of me
I've got this feeling that I can't deny
The truth is showing, look into my eyes
You started a fire
You made a liar out of me

I kept my distance even when we touched
Not even you could make me fall in love
No way, no how
But take a look at me now

You made a liar out of me
And I'm saying things I said I'd never say
I swore no one could make me feel this way
Now everyone can see
You made a liar out of me
Over and over and over again
You made a liar out of me

You made a liar out of me
I've got this feeling that I can't deny
The truth is showing, look into my eyes
You started a fire
You made a liar out of me
Girl, you started a fire
You made a liar out of me
