

Chad Siwik, Catch Me

I love you, I love you, I love you, I love you, I love you
I love you, I love you, I love you, I love you, I love you

You- You're always there when I need you
You- You always know how to get the job done
I- I was sick I was sick and tired of the games the others played,
And of running in the rain

I can see everything
Especially what I was missin'
Now you're here and I'm okay
I hope it never changes...

Catch me, catch me when I fall (Catch me, catch me when I fall)
Catch me, catch me when I fall

Am I always there when you need me
My- My greatest fear is-you leav-ing

I- I never could
I never could survive alone la a deserted isle
or from high to temporary high

I can see everything
Especially what I was missin'
Now you're here and I'm okay
I hope it never changes...

Catch me, catch me when I fall (Catch me, catch me when I fall)
Catch me, catch me when I fall

Run Yeah I can run and leave you
That would be giving up giv-ing-up on-you
I- I was wrong There I said it now
Isn't that your dream coming true?
Is it good enough for you?

Catch me, catch me when I fall (Catch me, catch me when I fall)
Catch me, catch me when I fall... down...
