

Chairlift, Garbage

All the garbage that you have thrown away
Is waiting somewhere a million miles away
Your condoms and your VCR
Your ziploc bags and father's car
Dark and silent it waits for you ahead
So much garbage will never ever decay
And all your garbage will outlive you one day
You should sign a fancy signature to your messy messy portraiture
Because dark and silent it waits for you ahead
Making so much garbage each and every day
We make this shit for you to throw away
In plastic rooms in factories for you to dispose of as you please
Because dark and silent it waits for you ahead

With stomachs full of oil and vinegar
Stomachs full of oil and vinegar
With stomachs full of oil and vinegar hey hey
With stomachs full of oil and vinegar
Stomachs full of oil and vinegar
With stomachs full of oil and vinegar hey hey
