Chaka Khan, Own The Night

Feeling the heat, I can't keep the pressure off me. Hear the man say Earn your pay or I'll let you go today. But that's not for me I was born to be alive not livin' to survive Come closer to me, baby Make me believe it, I can Own the night reach up and touch the light Own the night You make me come alive I own the night. Here in the dark, turn it on Love me forever like this. Baby don't stop make it hot I want to taste your burn again Take me away to a place I've never known Livin' right down to the bone Closer to me baby, Make me believe it, I can Own the night reach up and touch the light (love still shines) Own the night You make me come alive I own the night. You make me feel I own the night Own the night touch the light (love still shines) own the night (repeat to end)
