

Chalee Tennison, Easy Lovin' You

The best thing that I ever did
At the time was my worst mistake
Seventeen and just a kid
I was seventeen when I threw my childhood away for a hazel eyed quarter back
Senior year and eight months pregnant
I've never felt so fat
Wishin' I could go to prom
But they don't make dresses for girls like that (girls like that)

I should've been cheerin' for the home team
Top of my lungs sayin' "Go big blue";
Should've been marchin' with band
Instead of cryin' in a delivery room
Thoses things were all worth goin' through
Lookin' back it was hard lovin' me
But it's easy lovin' you

School all day and worked all night
Granny watched you play and sang lullabies
I got home just in time to watch my baby fall asleep
Watch my angel fall asleep

I'm the youngest mom at PTO
You always keep me on the go
Between basketball and ballet class
And I can't believe you're growin' up so fast
Yeah we're growin' up so fast

We're finally cheerin' for the home team
Top of our lungs sayin' "Go big blue";
It's funny how you're life can turn out
How time can make those mountains move
Everything is worth goin' through
It's not so hard hard lovin' me
Cuz it's easy lovin' you
Yeah it's easy lovin' you
It's easy lovin' you
It's easy lovin' you
