

Chalee Tennison, Leave It At That

(Sunny Russ/Stephony Smith/Cathy Majeski)

This conversation is going nowhere fast
Like a train on a dead-end track
There is nowhere left to go

Well, I don't really want to drag this out
If you're going to say it, say it now
No need to take it slow

We both know it's over
I don't need a shoulder
Oh, baby, let's just

Say good-bye and leave it at that
Instead of saying things we can't take back
The more we talk, the harder it gets to really let go
You couldn't fix it even if you tried
So go on and let me cry
You said you're leaving, leave it at that

Don't even try to let me down easy
It's pretty clear that you don't need me
Like you did before

What's so hard about the word good-bye
When I already see it in your eyes
So what are you waiting for

Only time can mend this
Why don't we just end it
Oh, baby, let's just

Say good-bye and leave it at that
Instead of saying things we can't take back
The more we talk, the harder it gets to really let go
You couldn't fix it even if you tried
So go on and let me cry
You said you're leaving, leave it at that

Let's just say good-bye and leave it at that
Instead of saying things we can't take back
The more we talk, the harder it gets to really let go
You couldn't fix it even if you tried
So go on and let me cry
You said you're leaving
You said you're leaving
Leave it at that
