

# Chalk Farm, Don't Believe

So you come to see me now  
When I'm trying to work it out  
Say you sort of felt somehow  
You wanna help  
So you spent some time alone  
He didn't want you anyhow  
So you thought it out and now  
You're back to stay and you'll change  
And I don't believe you will  
And I don't believe you care  
And I don't believe there is anything  
You could say that might repair  
And I don't believe you will  
And I don't believe you care  
And I don't believe you'll hear anything  
In this song I'm saying  
Time is on my side  
And I like to be alone  
And it matters what we hide  
I'm not your home  
Will you ever know  
And I don't believe you will  
And I don't believe you care  
And I don't believe there is anything  
You could say that might repair  
And I don't believe you will  
And I don't believe you care  
And I don't believe you'll hear anything  
In this song I'm saying  
And I don't believe you will  
And I don't believe you will  
And I don't believe you will  
And I don't believe  
You're back to stay and you'll change  
And I don't believe you will  
And I don't believe you care  
And I don't believe there is anything  
You could say that might repair  
And I don't believe you will  
And I don't believe you care  
And I don't believe you'll hear anything  
In this song I'm saying  
'Cause you're not there  
And I don't believe you will  
And I don't believe you will  
And I don't believe you will  
And I don't believe  
I don't believe you see  
I don't believe in me
