

Chance the Rapper, Same Drugs

We don't do the same drugs no more
We don't do the same drugs no more
Do the same drugs no more
We don't do the same drugs no more
Do the same drugs no more

When did you changed?

I thought you'd never grow up
I thought you'd never
Window closed
Wandy got old
I was too late /2x
A shadow of what I once was

We don't do the same drugs no more
We don't do the same drugs no more
Do the same drugs no more
We don't do the same drugs no more
Do the same drugs no more

Where did you go?
Why did you say?
You must have lost your memories?
You always were so forgetful
In a hurry
Don't wait up
I was too late /2x
A shadow of what I once was

We don't do the same drugs no more
We don't do the same drugs no more
Do the same drugs no more
We don't do the same drugs no more
Do the same drugs no more
