

Chandelier, Stellar Attraction

It's a natural fact, it's heredity
Born in human originality
It's a leading light, it's more and more
It's increase and it is war
It's supply and demand, it's competition
It's the law and it's a fiscal mission
It's the profit's song, a constant fight
It is trade and it is right
So get out of my day, you make me scream
All you critics with your social dream
We are the hope, we're heaven cent
don't be shy, take my hand
All the other way's - a complete disaster
We wipe them out, they fall ever faster
Reason and cash
All their coloured flags will soon be trash
It's a dollar affection and a stellar attraction
It's a trip to the stars, we'll land on Mars
An eternal chase for a new market place
We need land, Martian take my hand
This story of glory will end, we'll be sorry
The price is high for a slimy lie
Take my hand, say good-buy
