

Chanel, My Life (Haji & Emanuel Remix)

I want you in my life

Got me hurting cos I'm wanting you
And you're leaving me
Said you need more space
If it makes your life much easier
Well I must stray
Just tell me that you'll stay
Cos you can't go not just yet
Want you close by my side
When love's this good its hard to find
That I love you and you're always in my life

My life
I want you in my life
My life
I want you in my life
My life
I want you in my life
And you're always in my life
My life
I want you in my life
My life
I want you in my life
My life
I want you in my life
My life

Its not like me to be this way
But my love for you
Has got me so confused
And its not the things you do for me
How you make me feel
Keeps me wanting you
You can't go not just yet
Want you close by my side
When love's this good its hard to find
That I love you and you're always in my life

My life
I want you in my life
My life
I want you in my life
My life
I want you in my life
And you're always in my life
My life
My life
My life
My life
My life
My life
My life
