

# Changing Faces, Ladie's Man

Changing Faces  
Miscellaneous  
Ladie's Man

Any girl would come and say that I'm a fool  
Girl don't trip, cuz you know  
That it done happened to you  
You done ran into a guy  
That had your head all messed up  
Got you comin' out your clothes  
Talkin' you out your drawers  
And then never fall in love

Chorus

I know he got another girl  
(I know he got another girl)  
Know he ain't always at work  
(Not at work, ain't at work)  
I know he really got the pay  
(He was workin' studio)  
I know about the games he play  
(I done played those before)

I ain't one who didn't know  
Sometimes you gotta play the role  
Never made me feel like I'm a ho  
But he made me feel like I'm all woman
