

# Chant??? Moore, Old School Lovin'

Let's go back baby, back to the way it was  
As the clock strikes 12 on the wall  
I see your eyes are saying  
Ooh, let's take it back to the way it was  
And how we know it should be  
Ooh, we'll turn down the lights real low  
Take it nice and slow  
We'll make sure the mood is right  
As we sit by the fireside  
Look into each other eyes  
And make love to our favorite song  
That's how it was  
It's been so long, since we've been this way  
The good times we had somehow strayed away  
Let's put our love back  
Put lovin' back how it used to be in the days of true romancin'  
Give me that old school lovin', like you used to do  
Give me that old school lovin', I know you want to  
Give me that old school lovin', in that special way  
Old school love, old school love  
Ooh, back in the day, a man would treat a woman  
Like he knew he should  
On the phone all night 'til morning light, surprising her  
With flowers that he knows she, she'd go crazy for  
Ooh, it's been so long since we've been this way  
Times that we had strayed away  
Let's put our love back, put lovin' back how it used to be  
In the days of true romancin'  
Give me that old school lovin', like you used to do  
Give me that old school lovin', I know you want to  
Give me that old school lovin', in that special way  
Old school love, old school love  
Give me that old school lovin', like you used to do  
Give me that old school lovin', I know you want to  
Give me that old school lovin', in that special way  
Old school love, old school lovin'  
Ooh, old school lovin' is the way we should be lovin'  
When you're treatin' me the way I like  
Ooh, just like you like it, when I know how you want it  
And the way that I do it is the way you like  
Old school lovin' is the old fashioned way  
Like back in the day  
Give me that old school lovin', like you used to do  
Give me that old school lovin', I know you want to  
Give me that old school lovin', in that special way  
Old school love, old school love  
Give me that old school lovin', like you used to do  
Give me that old school lovin', I know you want to  
Give me that old school lovin', in that special way  
Old school love, old school love  
Give me that old school lovin', like you used to do  
Give me that old school lovin', I know you want to  
Give me that old school lovin', in that special way
