

# Chantal Chamandy, Peace

you came like the sunshine  
your life became my world  
a world I always dreamt of  
with a boy or a girl

every moment is a picture  
each word's a perfect sound  
in your eyes I see the future  
and I pray to God I'll always be around

and hear you speak with conviction  
teach us to believe  
that love will bring us together  
so we can achieve  
a peaceful world for tomorrow  
so that our children can live  
without the fear and the sorrow

teach us to believe

I awake to watch you sleeping  
and the smile's still on your face  
just keep dreaming and believing  
that everything you want will come your way

and you will speak with conviction  
teach us to believe  
that love will bring us together  
so we can achieve  
a peaceful world for tomorrow  
so that our children can live  
without the fear and the sorrow

teach us to believe

don't be afraid to run  
life doesn't wait for anyone, oh no  
trust how you feel inside  
and always and always believe

to hear you speak with conviction  
teach us to believe  
that love will bring us together  
so we can achieve  
a peaceful world for tomorrow  
so that our children can live  
without the fear and the sorrow
