

# Chantal Kreviazuk, Half Way Around The World

I don't get what people do  
They lie and they cheat and they steal from you  
So I, I made my own world  
I'm not sayin' I'm perfect yet  
I've got my share of regrets  
But I, I'm doin' my best  
You made me feel like  
I've gone halfway around the world  
And you let me know that  
I'm not such a crazy girl  
All that it takes to make you happy  
Whatever you need to know  
That you made me feel like  
I've gone halfway around the world  
I know what some of 'em say  
Let 'em talk, let 'em chip away  
You're not real without a broken heart  
Remember lyin' beneath the stars?  
We could be on Earth or Mars  
I'm so good because I'm in your arms  
Oh, you made me feel like  
I've gone halfway around the world  
And you let me know that  
I'm not such a crazy girl  
All that it takes to make you happy  
Whatever you need to know  
That you made me feel like  
I've gone halfway around the world  
When did we all get so distracted?  
I think we've gone insane  
You made me feel like  
I've gone halfway around the world  
And you let me know that  
I'm not such a crazy girl  
All that it takes to make you happy  
Whatever you need to know  
That you made me feel like  
I've gone halfway around the world  
I don't get what people do  
They lie and they cheat and they steal from you
