

Chaos UK, Selfish Few

You make sure you never lose
You only want to win
You use your head to find new
Ways to make people give in
Taking what they have
Becoming a good friend
But now that they have seen the light
You'll come to your end
Never giving nothing, Always giving a lie
Never giving nothing, People sussed your sly
You always take without giving
You've never heard of honesty
Times are hard for everyone else
But you can't bloody see
People queuing at your door
Begging for some food
You just slam the door on them
And tell them to get screwed
