Chapman, All My Life (To Love You)

I was treading water
Drowning every day
I used to be a swimmer
I made my share of waves

You pulled me on to dry land
Brought me back to life
You dried out all my heavy clothes
And the tears in my eyes

You took the spark in me
Out of that dark place
You made tomorrow
Something I could face

I found the most important thing
That anyone could have
Is to find someone who loves you
And have someone that you love

I've got all my life to love you
I just wanna give you love
And the only thing that scares me
Is that won't be long enough

You're the only thing that matters
Got so much love to give
Got all my life to love you
You got so much life to give

You're the one who made me
Pushed my pain away
I'm the one that's grateful
Every single day

I wanna be the constant
In everything you do
Nobody needed anyone
As much as I need you

I've got all my life to love you
I just wanna give you love
And the only thing that scares me
Is that won't be long enough

I've got all my life to love you
I just wanna give you love
And the only thing that scares me
Is that won't be long enough
