

Chapman, Love Is What We Are

What happened here
Did we all forget what love is
We're lost in fear
Of each other
God and magic

Hearts that are broken
We can replace
Things that we're missing
Fall into place

It's alright
Something came and opened my eyes
Love is what we are
Higher than the earth
Love is what we are

There is a dream
But we don't take time to make it
Held by a chain
But we made it
So it's breaking

Love for each other
Love for yourself
Just give your sister
And brother your help
It's our time
Searching in the souls of our lives

Love is what we are
Higher than the earth
Love is what we are

I heard a whisper
That we're all free
Let's make the journey
Just follow me
Follow me

Living in the light
Of our lives

Love is what we are
Higher than the earth
Love is what we are
That's what we are
