

# Chapman Steven Curtis, Don't Let The Fire Die

Chapman Steven Curtis

The Great Adventure

Don't Let The Fire Die

I can still feel the prayers you prayed for me all those years  
And I see now more than ever what a difference they have made  
And I can still hear your words spoken from a heart of great concern  
Saying keep your eyes on Jesus and love Him more than anything  
And I've watched the wind blow hard against you  
And I've seen your faith get weakened by the pain  
And I want you to know that I will be praying for you to hold on

CHORUS

Don't let the fire die

The flame has been dimmed by the tears that you've cried

But I can still see the spark of His love in your eyes

So don't let the fire, please don't let the fire die

This heavy weight you carry around

Of letting yourself and everybody down

Is pouring water on the passion that used to burn so bright

Well I know you've got your reasons for resentment

And I know it's more than I can understand

So just let me say that I'm gonna be praying for you

To let it all go

CHORUS

Don't let the fire die

The flame has been dimmed by the tears that you've cried

But I can still see the spark of His love in your eyes

BRIDGE

I'm not praying for the fire to burn the way it did before

'Cause I believe the one who started this flame in your heart

He wants to give you more

So don't let the fire die

(Chorus)
