The Great Adventure

Go There With You

I know you've heard me say these words before

But every time I say I love you the words mean something more

I spoke them as a promise right from the start

I said death would be the only thing that could tear us apart

And now that you are standing on the edge of the unknown

I love you means I'll be with you wherever you must go

CHORUS

I will take a heart whose nature is to beat for me alone

And fill it up with you - make all your joy and pain my own

No matter how deep a valley you go through

I will go there with you

And I will give myself to love the way Love gave itself for me

And climb with you to mountaintops or swim a raging sea

To the place where one heart is made from two

I will go there with you

I see it in your tears - you wonder where you are

The wind is growing colder and the sky is growing dark

Though it's something neither of us understands

We can walk through this together if we hold each other's hand

I said for better or worse I'd be with you

So no matter where you're going I will go there too

CHORUS

I will take a heart whose nature is to beat for me alone

And fill it up with you - make all your joy and pain my own

No matter how deep a valley you go through

I will go there with you

BRIDGE

I know sometimes I let you down

But I won't let you go - we'll always be together

(Chorus)
