

Chapman Tracy, Almost

Chapman Tracy

Let It Rain

Almost

Almost got what I want

Almost found what I lost

Almost saved you and myself

Almost won but it doesnt count

And never does

Never does

One green light

One more ring of the telephone

One more step

One more second

And I almost

Almost

Almost got what I want

Almost found what I lost

Almost saved you and myself

Almost won but it doesnt count

And never does

Never does

One hello

Just one kiss before the tears come

One yes

One chance

And I almost

Almost almost almost

Almost got what I want

Almost found what I lost

Almost saved you and myself

Almost won but it doesnt count

And never does

Never does

One day one year

5,000 weeks

A life of good works and good deeds

Let me be let me be closer

Or let me be

Let me be

Let me be

When Ive almost got what I want

Almost found what I lost

Almost saved you and myself

Almost won but it doesnt count

And never does

Never does

One good guess

A question with an answer that I know

One idea

One grand notion

And I almost

Almost almost almost

Almost got what I want

Almost found what I lost

Almost saved you and myself

Almost won but it doesnt count
And never does
Never does
Never does
Never does
