

# Charice, Born To Love You Forever

We've got a secret only you and I know  
We've got a language only we can speak  
I want you to be wherever I go  
It keeps getting better every time we meet  
I feel it deep inside, it can't be denied  
I knew the first time that we were together  
I was born to love you forever  
Nothing comes between us  
No one will ever 'cause baby I was born to love you forever  
I feel it in my heart that its destiny  
Can tell when we kiss, by the way we touch  
I'm meant for you, you're meant for me  
I never dreamed that I could feel this much  
I feel it deep inside, it can't be denied  
I knew the first time that we were together  
I was born to love you forever  
Nothing comes between us  
No one will ever 'cause baby I was born to love you forever  
Because we're young I know they doubt us  
But they don't know they first think about us  
We close our eyes when we kiss  
Let's never lose our innocence  
I feel it deep inside, it can't be denied  
I knew the first time that we were together  
I was born to love you forever  
Nothing comes between us  
No one will ever 'cause baby I was born to love you forever  
I was born to love you forever
