

Charisma, Beat Your Attitude

Beat your attitude to other level higher level
It will carry you and me
To the found of all the seas
Places you have never seen
Never heard and never been

I will never give up never give in - you will see
Twist your mind with me
And repeat after me
Im strong, better, the one, full of stability

You are lying in the dark sand of misery
So dig a well with me
Soon we will fade away by the wind
So dig a well with me

It aint easy to reach someone in full of crowd
Aint easy for you to see
Someone carying you and your dreams
To be true to be near
To stop this flying

I will never give up never give in you will see
Tear limits down with me
Imagine: in the fields of liberty
Theres no fence no rules
Kicked off that helvetti
