

Charisma, Passed Away

I believe somebody is lonely as human can be
Theres a person just like me
I try to kill the pain inside of me
Alike dies a part of my heart

Like a child I wander with killing pain inside of me
Has it always been there?
You dont care no compensation
I tried to be good with killing pain inside of me
I know its always been there!
But you dont see, you dont feel

I try to seek something comfort, but I cant feel
What have I done to deserve that all?
You gave me no change to make life worth of living
I passed away too soon

Soon I die for you! No!
