Charlatans Uk

Up To Our Hips

Autograph

Movin' in with the scum

And shine a light on the sweet one

Makes the one with the soul, classic girl

Can i have your autograph it's not for what you are

It's for only what you're not

This is not a place, it's a feeling now

Burning up in the sun in the fields

Next to this on a wall, it means everything

Change the world at seventeen what a way to get it right and now she's gotta go

Call it everything you hate and call me something more, call me what you want

Can't stop this feeling now

Get it over the floor didn't feel it

Get it out of the hole, didn't fill me in?
