

# Charlatans Uk, Can't Get Out Of Bed

Charlatans Uk

Melting Pot

Can't Get Out Of Bed

Don't let it stand out in the cold

Don't let it fall into a hole

With someone you know

Don't let it out in the cold

Don't let it fall into a hole

With someone you know

Can't get out of bed

You're keeping it straight

This city's a mess

Can't get out of bed

You're keeping it, keep on, get it together

Is this everything you wanted to be, wanted to be, wanted to be

Don't let it stand out in the cold

Don't let it fall into a hole

With someone you know

Don't let it out in the cold

Don't let it fall into a hole

With someone you know

Won't get off the phone

You're holding the rocks

And feeling it all

Won't get off the floor

You know that we're all going off to nowhere

You're nothing that you wanted to be, wanted to be, wanted to be

Can't come in the role

You're filling the holes

And ruining your clothes

Can't get out of bed

It's nothing and no one's coming over to me there

It's nothing that you wanted to be, wanted to be

Wanted to be

Wanted to be

Wanted to be
