

Charlatans Uk, Missing Beats (Of A Generation)

When You were young

You were

The first to crash

and burn

That's an illu

sion for the world to see

Now We don't look

the same

maybe it's D.

N.A.

I can't change You and You You can't change me

Missing Beats of a generation

through disappointments and self frustrations

Missing Beats of a generation

through disappointments and self frustrations

When You were just

sixteen

You were the one

for me

I can't recall us getting too much sleep

Now We are not

the same

maybe it's D.

N.A.

I can't change You and You You can't change me

Missing Beats of a generation

through disappointments and self frustrations

Missing Beats of a generation

the nature of our expectations

When You were young

You were

the first to crash

and burn

That's an illu

sion for the world to see

Missing Beats of a generation

through disappointments and self frustrations

Missing Beats of a generation

the nature of our expectations

Missing Beats of a generation

through disappointments and self frustrations

Missing Beats of a generation

the nature of our expectations

On and on, and on, and on,

the more We know the less We glow

I never thought

You would look so old

On and on, and on, and on,

the more We know the less You go

I never thought

You would look so old
