

# Charles Bradley, Change For The World

Revelation  
We're living in  
Am I dreaming?  
Who is gonna protect us now?  
Right back to color  
Blacks depreciate  
If we're not careful  
We'll be back segregated

Change for the better of your soul

We gotta change my love  
We gotta change for the world  
I got to give you my love  
If you don't know me by now just check yourself

I ain't afraid to love you  
See I come with open arms  
Stop hiding behind religion  
Hate is poison in the blood  
Heaven is crying, the world is shaking  
God is unhappy, the moon is breaking  
Blood is spilling, God is coming

What are you gonna do  
Shout them loud. Take this love  
Put away the gun and take this love  
We gotta change my love  
We gotta change for the world  
I got to give you my love

Change the false pretense  
Change the hate in you

We gotta change our love  
We gotta change for the world  
I got to give you my love  
Changing, changing, changing for this world  
All over the world  
Change
