

# Charley Pride, Anywhere (Just Inside Your Arms)

There are places to go where the cold north wind blows

Mountain's tall and the seashore have its charms

But the best place for me darling where I want to be

Is anywhere just inside your arms

Anywhere just inside your arms to be with you is where I want to be

Just as long as you're there then darling I won't care anywhere just inside your arms

If you like gay Paris Mexico or Tennessee where I want to go please let me tag along

Anywhere in this land I just wanna be your man anywhere just inside your arms

Anywhere just inside...

Yes anywhere just inside your arms
