

Charley Pride, Daydreams About Night Things

I'm having daydreams about night things in the middle of the afternoon
And while my hands make a living my mind's home loving you
I'm having daydreams about night things in the middle of the afternoon
And every night you make my dreams come true

Now all day long while I'm workin' in town time slows down to a crawl
When I'm not thinkin' about you well I'm checkin' the clock on the wall
Then it's goodbye factory and hello love and there's a smile across my face
Cause I'm back in the arms of your sweet love where my thought have been all day
So I'm having daydreams...
[harmonica]
I'm having daydreams...
