Charley Pride, Easy Part's Over (1968)

Charley Pride Miscellaneous Easy Part's Over (1968) The easy parts over now, its time to cry The easiest part of all, was saying goodbye

The easy parts over now, and you are gone Now comes the hardest part, living alone

Time is the only friend that I have left here with me But can those healing hand of time erase your memory?

The easy parts over now, weve come to the end The easy parts over now, and the hard part begins

Time is the only friend that I have left here with me But can those healing hand of time erase your memory?

The easy parts over now, weve come to the end The easy parts over now, and the hard part begins
