

Charley Pride, Got Leavin' On Her Mind

She don't hold and kiss me like she did one time
I think my sweet baby's got leavin' on her mind

The longer I know her the more I can tell my darling's not happy with me
The longer I know that I know her too well the less love in her eyes I see
She don't hold and kiss me...

[guitar]

The stronger I hold her the farther apart my darling is growing from me
The danger of my darling breaking my heart it's fast moving in on me
Cause she don't hold and kiss me...

[guitar]

The deeper I love her the farther away my darling slips out of my hands
The longer the future the longer I'll stay out of my darling's plans
Cause she don't hold and kiss me...

I think my sweet baby's got leavin' on her mind
