

Charley Pride, I Don't See How I Can Love You A

I can feel the warmth of you against my skin
Like a gentle wave that rushes to the shore
I have loved you since the day the world began
But I don't see how I can love you anymore
When the gentle touch of you is touching me
And the blinding fires of love began to roar
It seems that time stands still for you and me
But I don't see how I can love you anymore
[steel]

I can see that you have meant the world to me
You've been everything that I was searching for
I see the world of love ahead for you and me
But I don't see how I can love you anymore
When the gentle touch of you...
No I don't see how I can love you anymore
