(I've got a woman to lean on)

I've seen times there was no way the sun could ever shine

And I've seen me so completely down and I count up every time

But I've got me something special that keeps me going strong

When life gets rough hmm hmm I've got a woman to lean on

I've got a woman to lean on when I need her she stands by

She's a lovin' flowin' fountain the stream that never will run dry

She's a lady and she's a mother I think of which some kinda lover

Hmm hmm I've got a woman to lean on

I can't buy her the things I'd like but I don't hear her complain

If I needed water to save my life I think she could make it rain

And it's just a fact of livin' that sometimes things go wrong

But I don't worry hmm hmm I've got a woman to lean on

I've got a woman to lean on...

Hmm I've got a woman to lean on
