

# Charley Pride, Lovin' Understandin' Man

My baby changes like the weather one day she's warm and then she's cold  
But some day I'll understand her better in a thousand years or so  
But as long as there's blue sky above me and as long as there's life in my hand  
My baby knows I always will be her lovin' understandin' man

My baby rocks me like the ocean don't know which way she's gonna go  
But maybe some day she'll find direction in a thousand years or so  
But as long as there's blue sky...

[ guitar ]

But as long as there's blue sky...  
Her lovin' understandin' man
