Charley Pride, Mem'ries

Mem'ries I've got a million of those mem'ries in my mind
Mem'ries I think I've got enough to leave you behind
Oh mem'ries they used to make me warm but now I find
Mem'ries only make me feel old before my time
Mem'ries try not to think about the mem'ries all the time
Mem'ries forget the days when your sweet love was mine
Oh mem'ries I used to welcome them but now I find
Mem'ries only make me feel old before my time
Is there a way to make them go away now that I finally realize
Mem'ries only make me feel old before my time
