

Charley Pride, My Love Is Deep My Love Is Wide

My love is deep my love is wide you can't see across to the other side
My love is deep my love is wide
I've got too much love for you for me too hard to hide

People say I'm not the man not they used to know
Something made a change come over me
And when I feel such happiness I guess it's gotta show
Cause I'm a happy man that's plain to see
Cause baby my love is deep...

[steel]

When I'm gone the only thing I think about is you
And all your sweet love that you give to me
And you're a part of every single thing I ever do
And that's the way it's always gonna be
Cause baby my love is deep...
I've got too much love for you for me too hard to hide
