

Charley Pride, That Was Forever Ago

Tonight it's been six lonely days since you called me to tell me we're through
To think just last week you loved me so but that was forever ago
I've cried all my tears sure there's none anymore my heart is empty and cold
The future is black cause I can't go back cause that was forever ago
[dobro]
Our yesterdays were filled with sweet dreams what happened I'll never know
But yesterday's gone and I must go on cause that was forever ago
I've cried all my tears...
Cause that was forever ago
