

Charley Pride, Then Who Am I

If he's the one that's always on your mind the only one who's love can satisfy
If he's the one that keeps your heart alive then who am I who am I
Am I no more than just a rock you needed for a stepping stone
Until the right one came along
If he's the one that live with you inside then who am I who am I
[guitar]
Am I no more than just a fool that held you up when you were down
Until your true love could be found
If he's the one that live with you inside then who am I who am I
Yes who am I who am I
