

Charley Pride, Which Way Do We Go

Which way do we go now you and I should I laugh now or should I cry
Think of what you're saying now to me cause it's still you babe and I'm still me
Did I let you down in some way I don't know of
But I just can't believe that we've run out of love
That part about leaving say it's so one more time love which way do we go
[fiddle]
You know if I lose you I'll still go on but all my reasons they'll be gone
So while you're making your mind up heaven knows
My heart's crying which way do we go
Did I let you down in some way...
One more time love which way do we go
