

# Charli XCX, Doing It (feat. Rita Ora)

We're staying all night  
We never slow down  
I think we better do it like we're doing it now  
It's been a long time  
Since we've been around  
So come on, let's keep doing it, like we're doing it  
Doing it, like we're doing it

Waited so long just to be here  
Now we're bringing this back to life  
Yeah, we're bringing this back to life  
Want you to know how I miss you  
Now I got you right by my side  
Yeah, I got you right by my side

Locked inside my veins you're in my blood, in my blood  
And we're united forevermore

We're staying all night  
We never slow down  
I think we better do it like we're doing it now  
It's been a long time  
Since we've been around  
So come on, let's keep doing it, like we're doing it  
Doing it, like we're doing it now

Keep doing it like we're doing it  
Doing it like we're doing it

Friends like a team in a circle  
We're together we're so alive  
Together we're so alive  
Joy like a jewel, let it sparkle  
Know that I got your back for life  
I got your back for life

Locked inside my veins you're in my blood, in my blood  
And we're united forevermore

We're staying all night  
We never slow down  
I think we better do it like we're doing it now  
It's been a long time  
Since we've been around  
So come on, let's keep doing it, like we're doing it  
Doing it, like we're doing it

Keep doing it like we're doing it  
Doing it like we're doing it  
Keep doing it like we're doing it  
Doing it like we're doing it

All night long  
We dancing to this song  
We doing it, we going on and on, on and on  
All night long  
We dancing to this song  
We doing it, we going on and on, on and on

We're staying all night  
We never slow down  
I think we better do it like we're doing it now  
It's been a long time  
Since we've been around

So come on, let's keep doing it like we're doing it  
Doing it like we're doing it
