

# Charli XCX, Gone (feat. Christine and the Queens)

i have to go  
i am so sorry  
but it feels so cold in here  
I am just now realizing  
they don't care  
I try real hard, but I am caught up by my insecurities  
pour me on more  
watch the ice melt in my fist

I feel so unstable, fucking hate these people  
how they're making me feel lately  
they're making me weird baby, lately  
I feel so unstable, fucking hate these people  
how they're making me loathe  
they're making me loathe

why do we keep when the water runs?  
why do we love if we're so mistaken  
why do we leave when the chase is gone, baby  
why do we keep when the water runs?  
why do we love?

I will lay down  
but they're starting  
their eyes like two shining stones  
I see myself and I look scared and confused  
wait, did they just talk?  
why is it loud?  
do they wish to run to me  
am I a smoke  
am I the sun  
who decides?

I feel so unstable, fucking hate these people  
how they're making me feel lately  
they're making me weird baby, lately  
I feel so unstable, fucking hate these people  
how they're making me loathe  
they're making me loathe

why do we keep when the water runs?  
why do we love if we're so mistaken  
why do we leave when the chase is gone, baby  
why do we keep when the water runs?  
why do we keep when the water runs?  
why do we love if we're so mistaken  
why do we leave when the chase is gone, baby  
why do we keep when the water runs?

why do we keep when the water runs?  
ne me cherche pas, je ne suis plus là, baby  
why do we leave when the chase is done  
ne me cherche pas, je ne suis plus là

why do we?  
keep water run  
why do we?  
keep water run  
v why do we?  
keep water run  
why do we?  
keep water run  
why do we?

keep water run  
why do we?  
keep water run
