

# Charli XCX, In The City (feat. Sam Smith)

I'm flowin' through you like water  
Yeah, my body's swayin' side to side  
I'm focused in on the moment  
All the lights are diamonds in the sky, yeah

And I finally see myself like you see me now  
Took time, time to see myself 'cause I

I never thought I would find it  
But I found what I was lookin' for  
I never thought I would find it  
But I found what I was lookin' for

In the city, in the dark  
In the city, in the dark  
In the city, in the dark  
In the dark, dark, dark  
In the city, in the dark  
In the city, in the dark  
In the city, in your heart  
In the dark, dark, dark

Yeah

In the city, in the dark  
In the city, in the dark  
In the city, in the dark  
In the dark, dark, dark

I knew the night that I met you  
Underneath the New York City lights (Mm)  
Baby, no matter what I do  
There's an angel standing by my side

I never thought I would find it  
But I found what I was lookin' for  
I found it in the  
I never thought I would find it (Find it)  
But I found what I was lookin' for (I found it, oh)  
I never thought I would find it (Oh)  
But I found what I was lookin' for  
I found it in the (In the dark)  
[Charli XCX & Sam Smith, Sam Smith]  
In the city, in the dark  
In the city, in the dark (I found it in the dark)  
In the city, in the dark  
In the dark, dark, dark (Oh)
