

# Charlie Daniels Band, High Lonesome

Just you and me and a little white pup  
Sittin' here waiting for the sun to come up  
To keep the chill away  
Drinkin' our coffee at the first crack of dawn  
Watchin' a doe while she nuzzles her fawn  
It's my favorite time of the day

## CHORUS:

High lonesome  
God don't ever let this mountain change  
High lonesome  
I hope you will always stay the same

Sometimes in the evening when everything's still  
Sweet mountain music floats over the hill  
On a laurel-scented breeze  
Sometimes when nightbirds are scolding the mist  
I think I might know where heaven is  
It's just above the trees

## CHORUS

Watchin' my summertimes turnin' to falls  
Seein' my son growing honest and tall  
Keeps me satisfied  
If I live forever or I die today  
All I would ask is you just let me lay  
Here on this mountainside

## CHORUS
